Cautionary Statements Regarding Forward Looking Statements – Certain statements herein about our expectations of future events or results constitute forward-looking statements for purposes of the safe harbor provisions of The Private Securities Litigation Reform Act of 1995, including the statements regarding our strategic and financial initiatives. You can identify forward-looking statements by terminology such as “may,” “should,” “expects,” “plans,” “intends,” “anticipates,” “believes,” “estimates,” “predicts,” “potential,” “continue,” or the negative of these terms or other comparable terminology. Such forward-looking statements are based on currently available competitive, financial and economic data and management’s views and assumptions regarding future events. Such forward-looking statements are inherently uncertain, and investors must recognize that actual results may differ from those expressed or implied in the forward-looking statements. Certain factors could affect the outcome of the matters described herein. This presentation may contain forward-looking statements that involve risks and uncertainties including, but not limited to, changes in customer demand for our products and services, including demand by the power generation markets, electrical transmission and distribution markets, the industrial markets, and the metal coatings markets. In addition, within each of the markets we serve, we also continue to experience additional increases in labor costs, components, and raw materials including zinc and natural gas which are used in the hot-dip galvanizing process; supply-chain vendor delays; customer requested delays of our products or services; delays in additional acquisition or disposition opportunities; currency exchange rates; availability of experienced management and employees to implement the Company’s growth strategy; a downturn in market conditions in any industry relating to the products we inventory or sell or the services that we provide; economic volatility or changes in the political stability in the United States and other foreign markets in which we operate; acts of war or terrorism inside the United States or abroad; and other changes in economic and financial conditions. The Company has provided additional information regarding risks associated with the business in the Company’s Annual Report on Form 10-K for the fiscal year ended February 28, 2023, and other filings with the Securities and Exchange Commission (“SEC”), available for viewing on the Company’s website at www.azz.com and on the SEC’s website at www.sec.gov. You are urged to consider these factors carefully in evaluating the forward-looking statements herein and are cautioned not to place undue reliance on such forward-looking statements, which are qualified in their entirety by this cautionary statement. These statements are based on information as of the date hereof and the Company’s assumes no obligation to update any forward-looking statements, whether as a result of new information, future events, or otherwise.

Non-GAAP - Regulation G Disclosures – In addition to reporting financial results in accordance with Generally Accepted Accounting Principles in the United States (“GAAP”), AZZ has provided EBITDA and Adjusted EBITDA, which are non-GAAP measures. Management believes that the presentation of these measures provides investors with a greater transparency comparison of operating results across a broad spectrum of companies, which provides a more complete understanding of AZZ’s financial performance, competitive position and prospects for the future. Management also believes that investors regularly rely on non-GAAP financial measures, such as EBITDA and Adjusted EBITDA, to assess operating performance and that such measures may highlight trends in the Company’s business that may not otherwise be apparent when relying on financial measures calculated in accordance with GAAP.

Why Our Focus is Coatings

Source: Worldsteel

Strategic acquisition of Precoat Metals creates new capability and allows AZZ to provide coatings solutions to the largest part of the market (flat steel) as well as the growing aluminum market

AZZ's independence provides customers complete flexibility in sourcing, uniquely positioning the company to coat domestic or imported steel and aluminum from any service center or mill

Steel and aluminum are essential to a sustainable future, highly recyclable, and enable critical green energy technologies like wind and solar

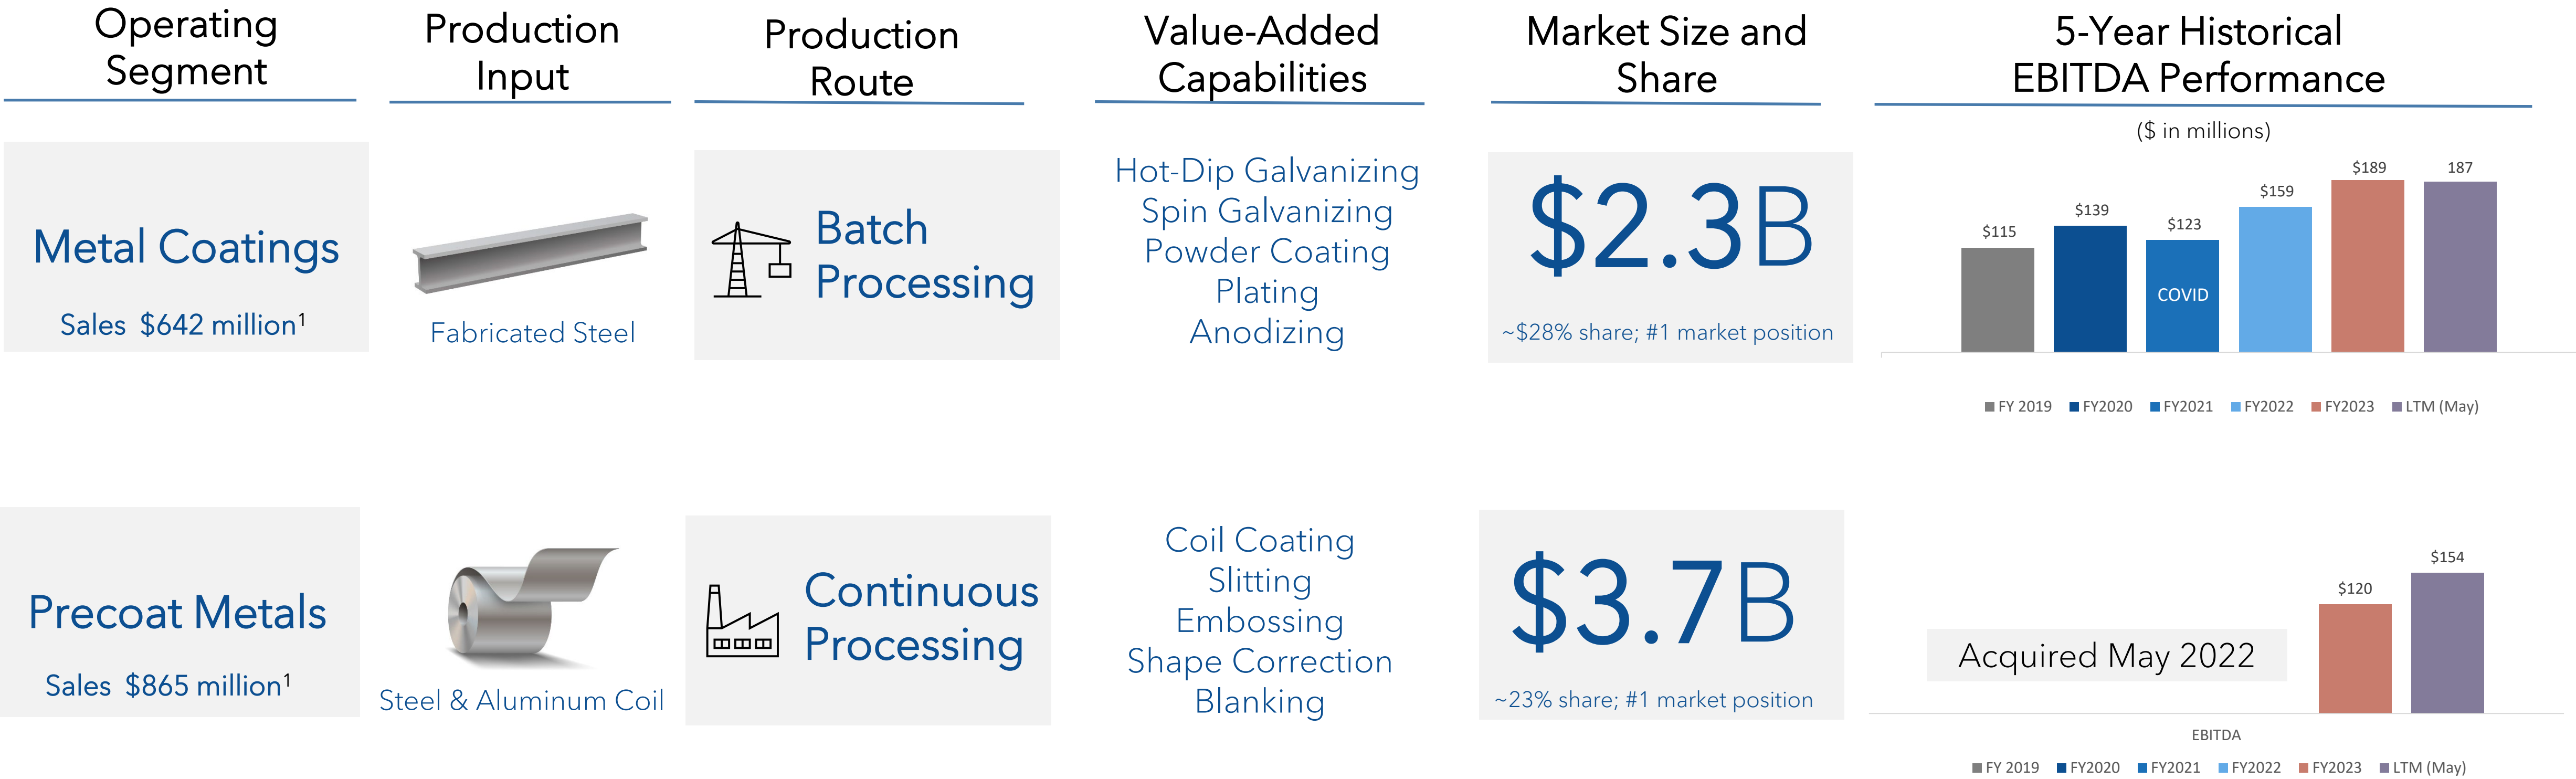

Hot-dip galvanizing and coil coating are environmentally friendly solutions that provide long-lasting corrosion and aesthetic benefits for steel and aluminum

Strong support for re-shoring, green manufacturing, infrastructure renewal and trade enforcement provides significant market tailwinds

Our Leading Segments

Value-added tolling model limits risk and exposure to metal price fluctuation

Technology Transformation – A Key Differentiator

Digital Galvanizing System (DGS) is a distinct competitive advantage

- Near elimination of paper with proprietary, state-of-the-art tool linked to Oracle ERP system
- Fully integrated; Allows real-time decisions and enhanced customer experience
- Provides real-time order status updates, tracking and notifications
- Better visibility and decision making across the organization and with customers

CoilZone is the industry leading productivity and customer engagement platform

- Propriety system with best-in-class features and customer portal
- Real time access with foundation to easily and quickly add enhancements

Sustainability

We are essential and environmentally friendly

- Sustainability is intrinsic to hot-dip galvanized steel as both zinc and steel are 100% recyclable
- Hot-dip galvanized steel is an infinitely renewable building material and used in renewable energy projects such as wind and solar
- Utilizing hot-dip galvanized steel ensures that fewer natural resources are consumed, fewer emissions are produced in the future, and with minimal environmental impact over the life of a customer's project

We are committed to sustainability initiatives and reporting

- Tracking and Reporting on Scope 1 and 2 consumption and intensity in our annual sustainability report
- Targeting a 10% reduction in Scope 1 and Scope 2 consumption and intensity
- Engaged a third-party vendor to assist with improving supply chain sustainability and developing Scope 3 emissions measurement and reporting

We recognize that diversity is key to sustainability

- We embrace the diversity of our employees, customers, vendors, suppliers, stakeholders and consumers, including their unique backgrounds, experiences, creative solutions, skills and talents.
- Everyone is valued and appreciated for their distinct contributions to the continued growth and sustainability of our business.
- AZZ's percentage of women in the global workforce increased over 106% from fiscal years 2020 to 2022
